"The First Step To A Lifetime Of Tennis"

Micro Tennis with Quick Start Format

Micro Tennis with Quick Start Format is a new format to help kids learn and play the game. To make it easier for them, we changed a few things. The court sizes.

The racquet sizes. The balls. The scoring system. Even the net height.

Now any child between ages five and ten can start playing tennis almost immediately—even if he or she has never picked up a racquet before.

Like other popular youth sports, Micro/QS stresses the importance of play and team competition. It's also now part of the USTA Jr. Team Tennis league, which means that even more kids will have the opportunity to experience this new format, have fun playing with their friends and develop skills that will become the foundation of their game.

and it gives parents and players a start and finish time.

The scoring system is simple. There are only seven points in a game, so match play is short and sweet. Kids play the best of the three games; the first to score seven points wins the game. The first to win two games wins the match. The match will last approximately 1 hour.

It's the fast, fun way to get kids into tennis-- and keep them playing.
